EMIS Report 2076

1. Executive Summary

EMIS JBC refers to the Education Management Information System of Jana Bhawana Campus which keeps record of different activities like year wise enrollment status, dropouts ratio, examination status as well as it keeps record of graduates from the campus. It is simply an information system for data collection, storage, integration, analysis and dissemination. To make EMIS system effective in Jana Bhawana Campus, an integrated software has been installed to connect all units and has an EMIS personnel who updates the necessary information related to the campus education system. It provides information to all users to enable them to conduct different tasks more efficiently, it also enables decision-makers to take better decisions and justify them based on created information, and it also enables planning and policy development. Recently, EMIS Jana Bhawana has recently installed software called Era soft which helps to strengthen the EMIS of the campus.
